

LEt LOVE UNiTE (WiNtER PRiDE EDItiON)

Lyrics written by: Edwin Fokkema (**FOKK_it**)

Are you ready?
Winter Pride
Through love, we'll unite

Oeh, Oeh, Hm

I'm wearing all my colours with pride
Feeling strong, filled with love
Finally nothing more to hide
Loving myself, not something from above

Making me stronger, feeling tough
For everyone to see
On this Winter Pride ball
Yes this is all of me, feeling free

Let love unite
Make it shine so bright
Like the infinite sunlight
During Winter Pride
(No, no, no)
No one has to hide
So make the change now
Step into the light
And let them see your true side
(Your true side)
Let love unite

Oeh, Oeh, Oeh, Oeh

It's a small world
We need to be united as one
So please let us hold on, on
Before all the love is gone
(Gone)

*Start by loving yourself
Just be who you wanna be
Let all of us help
So you can be wild and free*

*Let love unite
Make it shine so bright
Like the sunlight
During Winter Pride
(No, no, no)
No one has to hide
So Make a change now
And step into the light
And let them see your true side
(True side, your side)
Let love unite*

Oeh, Oeh, Oeh, Oeh

*True love (Love)
Is loving myself
Not something from above
(From above)
(From above)
(From above)
But within yourself
That's the only change
You have to make
(Have to make)
(Have to make)
So step up on to this stage
And just take
Your moment in time
And start to shine
Don't question why
No longer to hide
Just shine bright
Shine bright
(Shine bright)
(Your love shines bright)
(Your love shine bright)*

*Let love unite
Make it shine so bright
Like the sunlight
During Winter Pride
(No, no, no)
No one has to hide
So Make the change now
And step into the light
Let them see your true side*

*Wear your colours with pride
Feeling strong, filled with love
There's nothing more to hide
Only Love within yourself
Not something from above
(Your Love, Is true love)*

Oeh, Oeh, Oeh, Oeh
